

M19G20 Stitcher

There is a single head Stitcher to suit your bindery needs.

Our freestanding Stitchers all feature adjustable tables for **flat or saddle stitching** and a choice of Traditional or Side-Feed Stitcher Heads.

For your safety, each machine is designed with overload protection and low voltage trips. All of our Stitcher Machines meet the strict European **C.E. Safety and Electrical Standards.**

The **M19** is the perfect stitcher for thicker work such as forms, pads and ticket books. With a stitching **capacity up to 3/4" (20mm)**, the M19 accommodates both round and flat wire.
