

M27G20 Stitcher

The line of DeLuxe Stitcher Multiple Head Stitchers offers a solution to almost any bindery application. Like our Single-Head Stitchers, our **Multi-Head Stitchers** also boast **flat and saddle tables**, the flexibility to accommodate either Swivel-Style or Side-Feed Stitcher Heads and advanced safety features. Multi-Head Stitchers increase production speeds up to ten times to that of Single-Head Machines.

With an **impressive 3/4" (20mm) stitching capacity**, the **M27** is one of the highest capacity Multiple-Head Stitchers in the industry and is especially suited for stitching larger pads up to 3/4". Its ability to accommodate both the traditional 18D and the G20 Side-Feed Stitcher Heads makes this the perfect machine for almost any application.
